

Become an ABET Program Evaluator (PEV)

Program Evaluators (PEVs) are the heart and soul of CSAB and ABET. PEVs visit campuses around the world to help improve computing education. They tour labs, talk to faculty, meet students and alumni, and work closely with their fellow evaluators along the way.

Make a Difference

As a computing expert, you serve your profession by contributing your professional experience, judgment, and time. You will have a direct impact on the quality of computing education!

Grow Professionally

The training for PEVs is designed to simulate the actual ABET program review process. All PEV candidates are assigned a CSAB mentor who will provide support and feedback throughout the training process.

Expand Your Network

Serving as a PEV provides an opportunity to build and reinforce a professional network. ABET PEVs come from colleges and universities; government agencies at the federal, state and local level; and hundreds of companies in the United States and around the world.

How Do I Get Involved?

For everything you need to know, see [here](#):

CSAB is the lead ABET member society for computing degree program accreditation.
